### **About Cherre**

[Cherre](#) is the leader in real estate data and insight. Cherre seamlessly connects all disparate real estate data into a single source of truth, enabling companies to instantly explore all their connected data for immediate and actionable insight. By providing a unique “single source of truth,” Cherre empowers customers to evaluate opportunities and trends faster and more accurately, while saving millions of dollars in manual data collection and analytics costs. Cherre is the largest real estate knowledge graph in the world, and is trusted by the industry’s most important stakeholders to deliver mission-critical performance and reliability. Cherre launched in 2016 and is located in New York City.
